Changes 2014

Version 1

Technical Rules :

Rule 13.17: Trick lists

To facilitate trick scoring a A list of declared tricks to be attempted by the skier shall be required from each competitor in the trick event before the event starts. The Chief Judge and the Chief Calculator shall determine the exact time when the list must be submitted for the preliminary and the final rounds. The trick list shall be prepared using the official codes shown in the table of trick values. Reverse turns must be indicated by an R preceding the official code. In each declared trick pass, the skier may list only one trick and its associated reverse, if any, on two skis and one trick and its associated reverse, if any, on one ski under each number in the table, except that any type of 180° turn may be listed more than once. If a trick (non-180) is listed more than once in the same pass then it is treated like it is not there, neither it nor any reverse that follows it may score. Only the first instance of the trick will be considered by the Calculators. **There is no penalty for not following the trick list.**

A contestant who fails to submit a trick list shall be disqualified from that trick round. A skier may submit a different trick list for the event finals if he so desires. The declared list shall be made available to the officials at the discretion of the Chief Judge.

Rule 16.3: Categories

There will be only one World Ranking Lists for Men and one World Ranking List for Women.
